EXPERIENCE

Software Engineer
MetaDesign Solutions, India

📅 Feb 2023 – oct 2023   ⚲ Gurugram,India

- Designed, built and maintained efficient, reusable and reliable backend system using Rails.
- Identified bottlenecks and bugs and devised solutions to these problems
- I have worked on number of modules in ShivYog V1 and V2(New Platform). The modules are like Forum Registration by Sadhak, Mark Attendance By Admin And Forum Board Members, Refund/Upgrade/Downgrade/Cancel Event Registration (Super Admin And For Abroad Sadhaks). Special Forum Episodes Feature, integrated ZOOM JWT APIs Zoom Event Functionality where admin can set zoom configurations and can send notifications to sadhaks.

Software Engineer
Shopmatic, India

📅 July 2022 – December 2022   ⚲ Bengaluru, Karnataka

- Developed and maintained integration solutions for Google Merchant Center, ensuring accurate and efficient product data feeds, and enhancing data quality for millions of products.
- Worked with cross-functional teams to integrate Zoho into existing workflows, resulting in increased productivity and streamlined processes across departments.
- Collaborated with the team using in-house tools for productivity and worked under the Agile process along with daily SCRUM meetings
- Designed and implemented custom subscription tools for a range of services, including email marketing, online content delivery, and SaaS applications, resulting in significant revenue growth and customer engagement
- Handled and guided multiple subordinates for successful task deliveries.

Software Engineer
PlanetSpark, India

📅 Oct 2021 – July 2022   ⚲ Gurugram,India

- Working with Marketing Team
- Designed and maintained consistent data collection protocols and standards across numerous databases and projects.
- Diagnosed issues and applied troubleshooting techniques to resolve problems.
- Learned and worked with few AWS services to stream videos and to optimise website/code performance, etc.

Mentor
Coding Ninjas, India

📅 Oct 2019 – July 2022   ⚲ Pitam Pura,New Delhi,India

- Mentoring students in understanding basic computing concepts such as writing algorithms and problem-solving.
- Guiding them to learn to identify issues with the logical flow of code they create, and practicing good object-oriented techniques.
- Planning a proactive tutoring and study program to help them keep progressing in the course.

SKILLS

JDBC,ORM ●●●●○

PROJECTS

Codeial / Web App

📅 Project duration- 2 Months

Codeial web application.

Major Technology Used: Server side ExpressJs, front end using EJS, MongoDB, passport js, passport- google-oauth2, Nodemailer and Kuejs, socket.io, multer and JWT

Tech Blog

📅 Project duration- 1 week

Technical Blog.

Major Technology Used: Ruby on Rails, Sqlite3

Open WhiteBoard

📅 Project duration- 2 week

realtime whiteboard.

Major Technology Used: Vanilla JavaScript, Html and CSS, Socket.io

Instagram Reels

📅 Project duration- 1 month

Instagram Reels Clone.

Major Technology Used: React-Js, Firebase

Sell Old Cars

📅 Project duration- 2 Week

sell old car web Application.

Major Technology Used: Ruby on Rails, sqlite3, Stripe Api for PaymentMethod

EDUCATION

🎓 B.Tech in Information Technology
Maharaja Agrasen Institute Of Technology

📅 August 2018 – May 2022

CGPA: 8.2/10

EXTRA CURRICULAR

- UMEED ADGITM NGO,DELHI
- **Virtusa NeuralHack2021-Season5** Certificate

Campus Ambassador

IIIT Hyderabad

📅 October 2019 - March 2020   📍 Hyderabad Gachibowli, India

Promoted IIIT Hyderabad on campus and conducted various workshop competitions.

CODING PROFILES

- **Codechef profile**: deep1020
  - Highest Rating achieved:1634 (3 star)
  - Highest Overall Rank achieved : Country Rank 40591, Global Rank 49828
- **Leetcode profile**: Deep2010
  - Highest Rating achieved:1433 (3 star)
  - Problem Solved:200+
